

## OXYGEN ORGANIZATION ANNUAL ACTIVITY REPORT 2015

**MOTTO:** Because we love Nature!

### OBJECTIVES

The activities of Oxygen Organization head towards three main directions:

- advocacy of ecological tourism as a sustainable experience;
- nature and life conservancy and focus on law-protected areas;
- youth engagement in volunteerism as means of non-formal education.

We believe that it is each and everyone's decision whether we want to do something more than it is generally requested. This decision is essential in our later self-assessment. Volunteerism, internships, workshops help you define your hobbies and get ready for life.
